PROFESSIONAL SUMMARY

Motivated Computer Science student with a passion for software development, problem-solving, and continuous learning. Eager to apply technical skills and contribute to innovative, high-quality software solutions that solve real-life problems while growing as a developer.

EDUCATION

McMaster University

Bachelor of Applied Science in Computer Science, Co-op

Sept 2025 - In Progress

Hamilton, ON

RELEVANT COURSEWORK

- | | | | |
|----------------------------------|---------------------|-------------------------|----------------------|
| • Data Structures and Algorithms | • Logical Reasoning | • Software Development | • Concurrent Systems |
| • Automata and Computability | • Databases | • Computer Architecture | • Software Design |

EXPERIENCE

IT Operations Support Assistant

Legislative Assembly of Ontario

July 2026 – Sept 2026

Toronto, ON

- Provided operational support to the Technology Services Branch contributing to the efficiency of day-to-day IT operations.
- Assisted with IT-related projects, documentations and process improvement initiatives to support team objectives
- Supported asset tracking, data entry, and technology operations to ensure accurate records
- Utilized Microsoft 365 and internal systems to streamline workflows and support daily operational activities.

Wellness Program Coordinator

Durham Community Health Centre

June 2026 – July 2026

Oshawa, ON

- Coordinated and supported the delivery of community wellness programs, workshops, and health promotion initiatives for diverse populations
- Maintained accurate program records, tracked attendance and participation data, and assisted with reporting and program evaluation

PROJECTS

Personal Portfolio Website | *HTML, CSS, JavaScript*

May 2026

- Developed a responsive personal portfolio website to showcase projects, technical skills, and experience
- Deployed the website using GitHub and integrated Git for version control and continuous updates

Memory Match Web Application | *HTML, CSS, JavaScript, PHP, SQL*

March 2026

- Deployed a mobile-friendly Memory Match puzzle game using JavaScript, HTML, CSS, PHP and SQL where players flip cards and find matching pairs while tracking scores and moves
- Implemented object-oriented game logic with JavaScript classes, dynamic DOM updates for gameplay interaction, a canvas-based splash screen animation, and localStorage to store previous game scores

Flappy Bird Game | *Python, Pygame*

February 2026

- Deployed a Flappy-Bird style game using Python and Pygame, allowing players to control a bird and navigate through pillar obstacles
- Implemented game loops, collision detection, and random obstacle generation to manage gameplay, scoring and challenge

TECHNICAL SKILLS

Languages: Java, Python, HTML/CSS, C, PHP, SQL, JavaScript, Haskell, MATLAB

Developer Tools: VS Code, Geany, Visual Studio, PyCharm, IDLE

Technologies/Frameworks: Linux, Git, GitHub

LEADERSHIP/EXTRACURRICULAR

National Society of Black Engineers (NSBE)

General Member

Sept 2025 – Present

McMaster University

- Participated in networking, professional development, and community events hosted by the National Society of Black Engineers (NSBE) at McMaster University
